

# Bee City USA - Highlands

Report on 2021

## Pollinator Habitat Creation & Enhancement

We removed non-native invasive species on the Greenway, helped the Highlands Cashiers land trust create new habitat at Dixon Park and McKinney Meadow, enhanced the pollinator garden at the Highlands Biological Station and in the Greenway pollinator garden

Additional pollinator plants were added to the pollinator garden at the Highlands Biological Station

Road-side garden at the Greenway entrance on Oak Street

Creation of new habitat in Dixon Woods Park
