

Bee City USA - Crestwood

Report on 2020

Pollinator Habitat Creation & Enhancement

Installation of pollinator garden at Sappington Park with assistance from the Beautification Committee and the Sappington House Foundation.

Education & Outreach

The City of Crestwood had six honeysuckle removal events at four different parks. Honeysuckle was totally removed from three parks. Twenty native trees were planted in the honeysuckle removal areas. A garden tour was held to highlight gardens in Crestwood. Pollinator gardens were added at one additional park. Due to funding issues, the Beautification Grant program for neighborhoods was suspended for one year. Seeds and bulbs were given away at various events.
