Report on 2021

Pollinator Habitat Creation & Enhancement

Education & Outreach

Due to Covid, most events were canceled. We did conduct a drive-by Pollinator of the Year garden contest, which was fun and had fairly good participation. We worked closely with a separate group, the Honeybee Discovery Center board of directors, in their effort to raise funds and complete a design for the future Honeybee Discovery Center to be located here in Orland.

Policies & Practices

Integrated Pest Management Plan:
